Profile Summary

Full Stack Developer with **2+ years of professional experience** building scalable, production-grade web applications using **Next.js, React.js, Node.js, and TypeScript**. Proven experience delivering enterprise solutions across HRMS, MDM, and EPP platforms while collaborating directly with clients and cross-functional teams. Strong focus on clean architecture, performance optimization, and AI-assisted development workflows. Seeking a **Full Stack / Frontend Developer** role in a product-driven organization.

Skills

Languages: HTML5, CSS3, JavaScript, TypeScript
Frameworks: Next.js, React.js, Node.js, Express.js, REST APIs
State & Styling: Redux Toolkit, Tailwind CSS
Databases & ORM: MongoDB, Prisma ORM
CMS: Contentful
Tools: Git, GitHub, Bitbucket, Postman
Core Competencies: Full Stack Development, Frontend Development, Backend Development, API Integration, Authentication, Payment Integration, Real-time Systems, AI Integration

Professional Experience

Software Developer, Brilyant IT Solutions Pvt. Ltd, Bangalore, India Jan 2025 – Present

- Developed and maintained enterprise-scale applications including **HRMS, MDM, Smart EPP, Intranet, and E-commerce platforms** using **React, Next.js, Node.js, and TypeScript**.
- HRMS:** Built core modules such as **attendance, leave management, and employee management** using React.js and TypeScript. Contributed to backend development in Node.js for the recruitment module, implementing **meeting scheduling, rescheduling, and cancellation workflows**.
- MDM:** Developed frontend interfaces for **device onboarding, organization setup, policy enforcement, and device management dashboards**, enabling efficient monitoring and control.
- Smart EPP (Employee Purchase Program):** Contributed to a **corporate e-commerce platform** allowing employees to purchase products at discounted rates. Built a **portal-driven architecture** and integrated **secure payment gateway solutions**.
- Intranet (Project Lead):** Led development using **Next.js and Node.js (TypeScript)**. Implemented **SSO-like login bypass for internal apps, employee appreciation modules, real-time messaging using sockets**, and **Google Meet integration** within the platform.
- E-commerce (International Client - Philippines):** Contributed to frontend development and improved **user experience and performance** for a client-facing e-commerce platform.
- AI Screens (PO-Zoho Automation):** Designed and developed **frontend interfaces for AI-driven automation workflows**, enhancing usability for internal AI tools.
- Careers Portal:** Revamped the frontend for improved **UI/UX and responsiveness**. Integrated **AI-based resume parsing** to streamline candidate processing.
- Designed reusable components and followed best practices to improve **code maintainability, scalability, and performance** across applications.

Frontend Developer, Zipid (Freelance, Remote) Sep 2024 – Dec 2024

- Developed nearly **70% of the frontend application** using **Next.js and TypeScript**.
- Converted complex Form I-9 compliance workflows into intuitive UI components.
- Collaborated directly with stakeholders to deliver production-ready features.

MERN Stack Developer, Travelfika, Salem, India	Nov 2023 – Dec 2024
• Developed a content-driven blog platform using Next.js and Contentful CMS. • Migrated the application from React.js to Next.js, improving SEO and performance. • Implemented country-based configurations (US, IN) to support international users.	
Full Stack Developer Intern, G2 Technology Solutions Pvt. Ltd, Coimbatore, India	Jan 2023 – Sep 2023
• Trained in HTML, CSS, JavaScript, TypeScript, and MySQL. • Developed static and dynamic web pages and fixed production bugs.	

Projects

AI-Powered Expense Tracker

Designed and developed a full-featured personal finance application enabling expense tracking, budgeting, and savings goals. Implemented dashboards for monthly insights and category-wise analysis. Built advanced transaction management with invoice uploads, auto-categorization, custom tags, and recurring transactions. Integrated an AI assistant (Gemini) for expense prediction and financial insights. Enabled Excel and PDF exports for reporting.

Tech Stack: Next.js 14, TypeScript, Express.js, Prisma ORM, MongoDB, Google OAuth, JWT

Education

Bachelor of Computer Applications (BCA), Nehru Arts and Science College, Coimbatore CGPA: 8.0	2020 – 2023
Higher Secondary (12th), Sri Lathangi Vidhya Mandhir Matric Hr. Sec. School, Pollachi Score: 413 / 600	2019 – 2020
Secondary (10th), Sri Lathangi Vidhya Mandhir Matric Hr. Sec. School, Pollachi Score: 414 / 500	2017 – 2018
